# Hubb's Farm

Total commitment to providing professional event services to our farm guests. "Growing crops of fun" is not just what we do but what we love! Here at Hubb's, farming is a way of life that has been passed down from generation to generation. Eight years ago, John and Tammy Peterson added agri-tainment with the goal of providing good clean family fun on the farm. Since then, farm guests continue to visit with their families and friends to enjoy the awesomeness of being outdoors.
